SAFETY

2025

TABLE OF CONTENT

1. Evacuation Chairs

Check out various evacuation chairs that we offer , including specs , features , benefits etc.

2. Safety cots, mats and sheets

Evaluate our safety cots, mats and sheets - portable , foldable and easily assessable.

3. Automated External Defibrillator (AEDs)

We consider this as our most valuable asset due to the impact it creates in saving ones life.

4. Spill Kits

Clear labeling, compact storage, and quick deployment make these a must-have for safety compliance.

5. Safety Showers

Built for industrial settings, labs, and high-risk areas, these units are rugged, easy to activate, and compliant with global safety standards.

6. Eyewash Stations

Ideal for labs, factories, and workshops, they're clearly marked, easy to use, and engineered for reliability under pressure.

TECHNICAL DETAILS

Shower Head: 10" diameter orange ABS plastic with 20 GPM flow control.

Shower Valve: 1" IPS chrome plated brass stay-open ball valve. Valve is US-made with chrome plated brass ball and PTFE seals. Furnished with stainless steel actuating arm and 29" stainless steel pull rod.

Spray Head Assembly: Two GS-Plus™ spray heads. Each head has a "flip top" dust cover, internal flow control and filter to remove impurities from water flow.

Eyewash Bowl: 11-1/8" diameter stainless steel.

Eyewash Valve: 1/2" IPS chrome plated brass stay-open ball valve. Valve is US-made with chrome plated brass ball and PTFE seals.

Pipe and Fittings: Schedule 40 galvanized steel. Furnished with orange polyethylene pipe covers for high visibility and corrosion resistance.

Supply: 1-1/4" NPT female top or side inlet.

Waste: 1-1/4" NPT female outlet. Outlet can be positioned at either 9-1/4" or 19-5/8" above finished floor by reversing lower pipe nipples.

Sign: ANSI-compliant identification sign.

Quality Assurance: Valve and spray head assemblies are factory assembled and water tested prior to shipment.
