OVERVIEW

Move people safely down stairs when lifts can't be used

An evacuation chair lets one trained person bring someone who can't use stairs safely down to the ground when lifts are out of service. They are easy to operate and suited to hospitals, hotels, offices, schools and high-rise buildings.

The UAE Fire and Life Safety Code expects buildings to plan for evacuating everyone, including people who can't use stairs. Civil Defence in each emirate reviews these arrangements. Evacuation chairs, refuge areas and trained staff are the practical way to meet that expectation.

What we deliver

- Free site survey: stair cores, floors and likely users
- Supply of chairs, cabinets and signage
- Wall mounting at each stair core
- Hands-on training with certificates
- Annual inspection and refresher training

SAFETY CHAIR RANGE

Safety Chair EV series, cot and mat

COMPACT MANUAL CHAIR

Safety Chair EV 4000

159 kg capacity, 4 wheels, lightweight aluminium frame, telescopic armrests and footrest, folds for wall mounting.

MID-RANGE STAIR CHAIR

Safety Chair EV 5000

Self-braking stair tracks, 4-point quick-release harness, adjustable anti-slip handle.

HEAVY-DUTY AND BARIATRIC

Safety Chair EV 7000

250 kg capacity, head support with immobilisation strap, front and rear lifting handles.

POWERED STAIR CHAIR

Safety Chair EV 9000

Motorised descent for heavier, frequent use.

EVAC+CHAIR RANGE

EVAC+CHAIR, EVAC+SLED and ULTI-MAT

LIGHTWEIGHT STAIR CHAIR

EVAC+CHAIR 300H

Evac+Track friction tracks, head, chest and thigh belts, photoluminescent signage.

EMERGENCY EVACUATION CHAIR

EVAC+CHAIR 900H

Top of the EVAC+CHAIR range.

Also available

Model	Type	Key features
EVAC+CHAIR 300H	Lightweight stair chair	Evac+Track friction tracks, head, chest and thigh belts, photoluminescent signage.
EVAC+CHAIR 600H	Dual-position evacuation wheelchair	Works as a stair chair and as a wheelchair.
EVAC+CHAIR 750H	Robust stair chair	Built for heavy use on stairway descent.
EVAC+CHAIR 900H	Emergency evacuation chair	Top of the EVAC+CHAIR range.
EVAC+SLED	Evacuation sled	Adapts to every passenger's size: one size fits all.
ULTI-MAT	Evacuation mat	Small and compact for storage.

MED SLED

Med Sled evacuation sleds

When timing is critical, the Med Sled evacuation sled lets one person evacuate another out of a single-storey building or down the stairwell of a multi-floor building. A tether and stairwell braking system is included on every sled, and all sleds roll up into a compact bag with a shoulder strap.

- Med Sled 36: 36 in across, 8 handles for lifting, 3 securing cross straps, foot loop strap for extra support
- Infant evacuation basket for high-risk and NICU infants: safe, secure, hands-free carrying
- Room for high-frequency ventilation and medical attention; holds IV bags and life-sustaining equipment
- No assembly required, lightweight and decon capable; holds 100 lb
- O2 Evac Pack (backpack style) holds a size D or E cylinder with regulator, and connects directly to the basket

SELECTION GUIDE

Which one do you need?

Model	Type	Key features
Safety Chair EV 4000	Compact manual chair	159 kg capacity, 4 wheels, lightweight aluminium frame, telescopic armrests and footrest, folds for wall mounting.
